President's Note – December

This year is winding down fast, which means the busy Christmas Holidays aren't far away. For me, the holidays come with much anticipation and planning. Perhaps it's anticipation of what Santa might bring us, or maybe anticipation of what the New Year might be like. Many of us even make New Year Resolutions to try and ensure certain desirable things will happen. So with all of this wishful *thinking* and *planning* going on, I recommend we also focus some of it to include FSMTA.

Consider what you would like the club do more of, or perhaps less of, or get involved with? Think about what gives you the most enjoyment of all the things we do. Remember, this is your club, thus you have a big say as to what we do. Please let me or any of the other 3 officers know your thoughts. All suggestions are welcomed.

For those who could not attend our Annual Meeting and Holiday Party, here are a couple of things you should know. First, our slate of officers for 2020 remains the same. I am very grateful to Ed, Anne and Jack for continuing to serve our club for yet another year. Secondly, John P has asked that the normal arrival time of 5 PM for our Monthly Meetings be better observed. Folks have been arriving earlier and earlier. This causes problems for how John plans his day in order to be ready for us.

I hope everyone has a wonderful Thanksgiving, & a very Merry Christmas!

Pete

Send pictures with snow for Jan.

**DECEMBER 15, SUNDAY----ELK's breakfast--
8Am SHARP**

A three-legged dog walks into a saloon in the Old West. He sidles up to the bar and announces "I'm looking for the man who shot my paw."

What's the difference between an alcoholic & a drug addict?

The alcoholic drives over the stop sign, while the drug addict waits for it to change to green.

Why does a traffic light turn red.?

You would to if you had to change in front of all those people.

Two old people,a man and a woman, walking to a hospital. The doctor says to the old man,I'll need a urine sample, a feces sample, and a blood sample." The old man says, "WHAT?!" So the doctor says it again. Once again the old man says "WHAT?" So the doctor yells it, "I NEED A URINE SAMPLE, A FECES SAMPLE, AND A BLOOD SAMPLE!" With that the old woman turns to the old man and says, "He needs a pair of your underwear!"

Knock knock?

Who's there?

Megan.

Megan who?

Makin a list and checkin it twice gonna find out who's naughty or nic..

MERRY CHRISTMAS
