TIN LIZZIE GAZETTE

VOLUME XV

ISSUE 6

President's Note

Many thanks to all who were able to make it to Norwich Tech High School on May 9th. We had a fabulous turnout for this event and I think we set a record for the number of member cars going to a club program. We had seven cars caravanning from Baltic and an additional 6 vehicles met up with us at the school.

We arrived at the school around 10:30 and by 11:00 we started giving rides to a very enthusiastic bunch of students. We spent about an hour giving rides, answering questions and just listening as some of the seniors spoke about what their plans were for the future. Our program format using the cut-away engine and parts display table, was similar to prior events but I noted it gets better and better with each time we talk in a group. Jack & George did the delivery of the inner workings of the engine and transmission, and other members jumped in with additional insights as appropriate. Even the school instructors got involved asking questions and playing with transmission parts.

Norwich was our third and final Tech school visit which we are doing as part of last year's 20th anniversary celebration. I am sure however that as classes' graduate we will be invited back to all three schools again.

Thanks again for a wonderful turnout. It speaks for our club.

Happy Motoring -- Pete

JUNE TOUR REPORT
