TIN LIZZIE GAZETTE

NOW A WORD FROM OUR PRESIDENT

May is a special month for us. Twenty years ago this month we became a Chapter of MTFCA. Using the date of May 8th as our official birthday, we had 13 members, whom I refer to as our founders. By the end of May our ranks had grown to 23.

Now, looking at ourselves today, we are still fortunate to still have 3 of

these founders as members, and our total club is now comprised of 28 member families.

We finished April with our first ever club visit to Windham Tech. The day was a great success, despite the weather. We started the day off with our 10 cars giving rides around the school parking lot. Kids asked some very good questions as we each explained operation of driving a "T". Following the rides George talked about the car as well as the man responsible for it... Henry Ford. Our cut-away engine aided us in the discussions and the students seemed to enjoy it a lot. We were treated to an exceptional lunch, which was prepared by students in the Culinary School. After lunch we wrapped up formal discussions and then let the students show us what they were working on in the shop. We had a good time with the students, and hopefully they came away with new appreciation and understanding of older, yet highly successful technology... which truly put America on Wheels!

Happy Motoring
Pete
