The sign said Diesel NOT GAS

PRESIDENT MESSAGE

Presidents Note - Sept

If you haven't done so lately, check out the pictures on our website. The most recent ones capture the fun we had at Passardi's private collection of Ford memorabilia as well as our relaxing lunch which followed on the Stafford Village Green. Lunch could have been even more leisurely had we noticed the potta-potty which was hiding behind a fence. Unfortunately it was not discovered until we were driving away. Oh well, live and learn. It was a fast drive home!

Great time at the Brooklyn Fair this year. As you all know, the Fair was interested in the cut-away engine project of our club. They provided a 20X20 tent with lighting and sides to close for overnight. It was wonderful to see the interest by everyone, young and old, men and women. Everyone was so enthused. We received many positive comments, including someone calling it a museum piece. The Fair started on Thursday afternoon and by Friday evening we were asked by the Fair personnel if we would return with it next year. They will give us the same space and tent as this year. Many thanks to Jack & Marge for all of their hard work. They did an exceptional job. Jack didn't catch a break until Sat when Harold, Ed and myself arrived and picked up some of the narration. I believe Jack is still horse!

Regarding our Annual Meeting (Nov 18th), we are looking for pictures of fun things the club has done over the past 20years. If you have anything to share please let me know, as I would like to make display. Also needed are photos of former members. Have anything? Give me a call.

Fall is lurking just around the corner and with it comes some great things to do... so check out Marty's calendar.

Happy Motoring
Pete
