Issue 3

MARCH 2019

HAPPY ST.
PATRICK'S DAY

MARCH, 10th, AT 2am

President's Note – March

Good News! According to Punxsutawney Phil ... ⇒⇒

Therefore, it may be wise to start getting your cars ready to roll.

(Then again, if you believe an overgrown rodent, I have a bridge for sale you may be interested in!)

Our 2019 Roster has been submitted to “National” well ahead of schedule, and according to my calculation we should once again qualify for Chapter Insurance. I’ll let you know for certain as soon as “National” reviews all names against their membership list.

We had a number of interesting discussions during Feb.’s meeting at John’s; two of which were excellent learning opportunities. First, Marty lead off with a discussion regarding timers (New Day vs. Anderson). Then Ray shared the cause of his generator failure along with newly acquired tips and facts received from the “Coil Doctor”. Lots of useful information was shared that evening.

Jack is busy thinking up interesting places for us to visit with our Ts this year. Please contact him if you have any suggestions. Also, we will probably visit one Tech school this spring (May timeframe) to put on our *Yesterday's Automotive Technology, Today* program. Once again, we will need a strong club turnout like we had at Windham and Ellis Tech last year. Students loved to see and ride in a wide variety of vehicles. More on this event later...stay tuned.

Lets hope Phil is correct!

Pete

Top Tim in Vt.

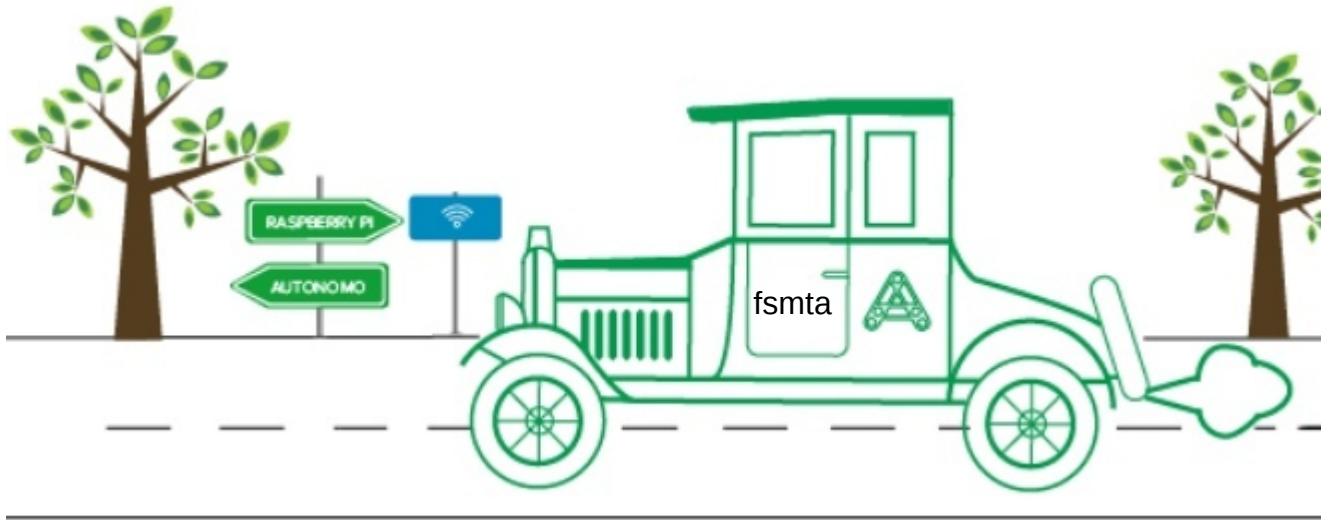

Left,, Tim was sanding the body
When he stepped back and
this is what he found under
the top layer.

Jim's truck when he first got it
way back.

This car belongs to Karl H.
after he bought it from George King around 2001
